THE COMPUTER IN PLAIN... GREEK

## PRESS RELEASE

The June issue  
of Computer Active,  
out on sale!

Dear associates,

In the June issue of Computer Active, coming out today,  
June 8, we present you:

- How to create, without cost and effort, the best videos using your PC.
- We compare four digital camcorders, priced up to €500.
- We give useful advice on how to choose a computer password and how to protect it from intruders.
- We declare war on spam and describe ways and methods on how to get rid of annoying electronic messages, once and for all.
- We give useful advice to left-handed users, while presenting peripheral devices specially designed for them.

For free, the extremely useful Hellas Navigator CD-ROM,  
providing:

- Representation of all roadmaps of the urban areas of Athens, Attica and Thessalonica.
- Creation and management of routes.
- Creation and management of databases from the user.
- Phone directories with a search possibility, based on name, profession and address.

And of course, like every month, you can find our permanent columns such as New Products, Workshops, Games and Mobile Active with devices, news and advice from the mobile world, as well as many other interesting articles.
