

The No1 technology magazine in the world

## PRESS RELEASE

Athens, June 29<sup>th</sup> 2005

### The No 1 technology magazine in the world announces its new site at the address [www.pcw.gr](http://www.pcw.gr)

Today, PC WORLD, the biggest technology magazine in the world, released its new site at the address [www.pcw.gr](http://www.pcw.gr).

The new site is multifunctional and one of its main goals is to become a point of reference offering **complete information** on the latest technology evolutions.

Through its **community forum** the visitors will have the opportunity, at any given time, to communicate with each other, to comment on the news and to exchange information.

**Top 100** is the absolute market guide in Greece, including the best products of the Greek market, which were ranked first under exhaustive tests held at the Personal Computer Laboratories. The Top 100 is renewed on a regular basis on the magazine's site and is published every month in PC WORLD.

The site will soon feature new characteristics, sections and functions.

For technology advice you trust visit [www.pcw.gr](http://www.pcw.gr)

#### About IT Publications Hellas Ltd

**IT Publications Hellas Ltd** publishes the monthly technology magazines PC WORLD, Digital World & Computer Active, the biggest technology magazines at world-wide and European level, respectively.

**PC WORLD** is addressed to advanced users and professionals who make extensive use of technology products. It is a magazine that meets the needs of professionals in information technology, as well as the best vehicle for companies who wish to address that crucial market segment. **Digital World** comes out along with PC WORLD and reports the "digital world" that has entered the house of today.
